CHRISTOPHER WIJAYA

Medan I cwcwchristopher@gmail.com I Portfolio : christopherwijaya08.github.io/my-portfolio/

SUMMARY

Hi, I am Software Engineer with 3 years of professional experience building and maintaining full-stack web and mobile applications across multiple industries. Specialized in Angular and React frontends, RESTful API design, and cross-platform mobile development with Flutter. Proven ability to deliver scalable, user-centric solutions in both WFO and remote environments.

WORK EXPERIENCE

Web Developer

PT. SumatraSarana Sekar Sakti I May 2023 - June 2026 (WFO)

- Built and maintained internal systems including HRIS, Inventory Management, POS, and Project Management using Angular + Bootstrap and React + Tailwind.
- Created reusable components and contributed to scalable UI architecture for daily business operations.

Fullstack Developer

Wilmar Consultancy Services I Jun 2026 - Present

- Developed and maintained enterprise transportation and industrial applications using Java and ASP.NET.
- Diagnosed and resolved production issues, improving system stability and application reliability.
- Collaborated with cross-functional teams to deliver high-quality software solutions.

FullStack & Mobile Developer

PT. Capella I July 2024 - Dec 2024 (intern)

- Designed a multi-platform sales monitoring system with Laravel (API), React (web), and Flutter (mobile).
- Features include customer management, order, and down payment handling, and multi-level approval flows.

Fullstack & Mobile Developer

UD. Aguaris I Sept 2024 - Present (WFH)

- Developed an employee attendance and ice-distribution sales tracking system using FastAPI, React, and Flutter with real-time mobile attendance logging.
- Focused on clean API structure, efficient data flow between platforms, and responsive user experience accross web and mobile.

EDUCATION

bachelor's Degree in Informatics

Universitas Pelita Harapan | Aug 2021 – Dec 2024

Focused on building strong skills in programming, system design, and software development. Hands-on projects and team-based learning sharpened my problem-solving, critical thinking, and adaptability preparing me for real-world tech challenges.

SKILLS

- Angular
- React
- NextJS
- TypeScript
- Bootstrap
- Laravel
- Flutter
- FastAPI / Python
- MySQL
- RESTful API
- Java
- ASP.NET
